

SPIRIT OF YORK DISTILLERY Co.

ABOUT US

By marrying time-honoured distillation techniques with state-of-the-art equipment, Spirit of York produces some of the finest, premium spirits you will ever taste. All of our spirits are made with 100% Ontario grown rye and Ontario spring water.

GIN

Our Gin begins with the purest portion of the distillation and is carefully imbued with the essence of our 15-selected botanicals. This infuses the Gin with the rich character of juniper, cinnamon, coriander, angelica root, fennel seed and other proprietary botanicals to balance this incredibly crisp, refreshing and truly unique Gin. The spicy and savoury notes are paired with fresh citrus flavours and balanced with cubeb pepper and star anise.
